

Health-Check System

Your loved one can keep their independence, You can relax knowing that they are ok.

Our Health-Check system provides a variety of features to allow your loved ones to maintain their independence and allow you the comfort and piece of mind in knowing that they are ok. Your loved ones are never far from assistance with portable wireless help buttons that can be programmed to e-mail you when pressed. With custom programming, you are always in the loop about the well-being of your loved ones.

Receive scheduled status reports that answer all of your questions,

Examples:

- Did they get out of bed today?
- Did they open the medicine cabinet today?
- Have they been to the kitchen to eat yet?

Receive incident reports that may need your immediate attention

Examples

- Excessive movement in the house after 10pm
- I need help
- Missed a meal
- No activity in the house after 9am
